Road, Bally, Howrah-711201

## EDUCATION

- M.C. Kejriwal Vidyapeeth  
ICSE : 95%  
ISC : 94%
- Techno Main Salt Lake  
2021-2025  
BTECH CSE

## SKILLS

- React js
- React native
- Node js
- MongoDB
- C/C++/Java
- Github
- UI/UX

## LANGUAGES

- English
- Bengali
- Hindi

## ABOUT ME

Currently I am persuing Btech in CSE in Techno Main Salt Lake and have various ambitions especially Full Stack Development. I have tried to make various projects using MERN Stack and learning more about these technologies .I do have the passion to learn and upgrade to newer more efficient technologies in the recent future if I get any oppurtunities and would try to give my best and constructive inputs in any field where I work.

## PROJECTS

### • MERN Stack Chat App

This is my first full stack(MERN) project which is made using React js as frontend, Express js and Node js in the backend and MongoDB Atlas as the database which is hosted in heroku. I also used Postman for API testing and chakra ui for the user interface. This app has almost all the features needed for a chat app most importantly realtime messaging which is made possible using socket io. It also has various features like groupchat, updating groupchat, searching various users etc.

### • API Project Weather App

This was my first Api Project where I learnt to fetch data from API which is hosted in vercel. Prime features of this app is providing accurate information of not only temperature and climate but also various weather conditions like pressure, wind speed and humidity of various cities around the world.

## EXPERIENCE

### • Techno Main Salt Lake
